Ideas from schools for using

Online Courses

on digital technology in teaching and learning
during Croke Park Hours

Be strategic

Add actions to complete online courses to your Digital Learning (DL) plan. Align DL plan with SSE or curriculum priorities.

Use whole school hours

Schools can use whole school hours to establish a baseline of knowledge among all teachers with an online course.

Use individual hours

Many teachers can use 10 or 14 hours for individual (non-whole school) activity. Online courses are perfect for these hours!

Use complementary activities

Add an agenda item to staff meetings to share digital learning or practice and inspire others to engage in courses.

Oide Technology in Education online courses are:

- **Accessible:** available 24/7, free of charge
- **Verifiable:** completion certificate, badge
- **Flexible:** self-paced, anytime, anywhere
- **Trusted:** a public service provider
